

Request for Information – Oceanit Capability Statement

State Procurement Office

Request for Information (RFI)

Agency: Hawaii Emergency Management Agency (HI-EMA)

RFI-15-003

Company Requesting Consideration: **Oceanit**

1. Core Competencies: Oceanit’s relevant core competencies for this RFI are support with emergency staffing and recovery staffing in the area of damage assessment in the areas of Individual Assistance, Business, and Infrastructure assessments.
2. Past Performance: Oceanit is the developer of the MERCI damage assessment system that HI-EMA utilizes for damage assessment. Oceanit has experience in the field providing damage assessment support in both the EOC and in the field. Specific experience includes support on Oahu and the Island of Hawaii during tropical storm Iselle.
3. Differentiators: In addition to being a technical resource for the MERCI damage assessment system, Oceanit has subject matter expertise in damage assessments and developed a FEMA-approved damage assessment course for the National Disaster Preparedness Training Center (NDPTC). Oceanit is also a Hawaii company with staff on Oahu, Maui, and Kauai.
4. Corporate Data: Established in 1985, Oceanit’s staff focuses on aerospace, life science, information technology and engineering consulting, working in incubating, cross-collaborating teams producing dual-use technologies spun off into new ventures. Oceanit is a Hawaii company with offices in Washington DC and Houston, but is dedicated to supporting our local Hawaii customers.
