

ER Assist, Inc. Core Competencies, Past Performance, Differentiators, Corporate Data, Contact Information.

Software Core Competencies

- Damage Assessment (IA and PA)
- Grantee Processing of Grants; Reports for FEMA PA Program
- Project Wizard (develops projects for Subgrantees (cities, counties, non-profits) for eventual import into EMMIE)
- Cat Z development/time tracking for Grantee Staff or Contractors
- Equipment Inventory
- Time Tracking Software
- Debris Plan and Continuity of Operations Plan Software

Differentiators

Grantee

- No IT Setup Needed (Software as a Service)
- % of our cost is reimbursed as part of grant
- Heat maps and sitemaps per funding/damage reports.
- Only Fully Integrated Software that can be used "blue sky" (non-disaster) (e.g. debris plan, coop plan, structure, culvert inventory, time tracking, equipment inventory) as well as "grey sky" (damage assessment) all the way through recovery grants close out. Info is entered once and available across platforms (example: EWS/environmental info identified and imported in debris plan will show on damage assessment and project development modules).
- Imports or syncs with several federal agencies data feeds including Census and EMMIE data

City/County/Non-Grantee State Agency

- Critical Facilities pre-loaded in system
- Policies/Guidance pre-loaded in system
- VOAD pre-loaded in system
- MBE/Targeted Business inclusion pre-loaded in system
- Mapping Ability (road segments, shape files)
- Track Structure Repetitive Loss/Damage (used in multiple modules)
- Some software/support is provided at NO CHARGE to cities, counties, non-profits, and state agencies.

Corporate Data

- Benefit Corporation
- 100% Woman and Service Disabled Veteran Owned
