FIRSTNET MOBILE - POOLED PLANS AND FIRSTNET MOBILE - UNLIMITED PLANS FOR STATE AND LOCAL GOVERNMENT (FirstNet Evolved Packet Core): Require a FirstNet Capable device provisioned with a FirstNet Trio SIM card. **Eligibility:** The above FirstNet Mobile Plans are available only to state and local government Public Safety Entities that are Primary Users having a qualified Government Agreement. The plans are intended for use solely by Agency Paid Users. **Definitions: Public Safety Entities** are entities authorized by the First Responder Network Authority to obtain services under the FirstNet program. **Primary Users** are those Public Safety Entities that act as first responders, i.e., those entities whose primary mission and job function is to provide services to the public in the area of law enforcement, fire protection, emergency medical services, emergency management and emergency call (911) dispatching. **Extended Primary Users** are those Public Safety Entities that are not Primary Users, but who may be called upon to support Primary Users during the time of an emergency of its aftermath. **Agency Paid Users** are individual employees and contractors of a Public Safety Entity who are granted access to a FirstNet Mobile plan for which the Public Safety Entity is financially responsible. A **Government Agreement** is a qualified AT&T wireless service agreement between AT&T and a state and local government Public Safety Entity eligible to participate in the FirstNet program. Plans are subject to the terms of the Government Agreement and, when incorporated into the Government Agreement, the AT&T FirstNet Solution Service Guide.

FirstNet Evolved Packet Core Limitations: The FirstNet Evolved Packet Core is designed primarily for domestic use by Public Safety Entities, with planned additional capabilities for Wi-Fi-calling, wearables, Public Static IP Addressing, Advanced Messaging and international voice and data roaming capabilities outside of Mexico and Canada. These features will be supported in the future. See www.firstnet.com/features for details. **International Roaming Blocking Feature:** All FirstNet Mobile plans are provisioned with the International Roaming Blocking Feature. Customer must remove the feature to roam in international locations other than Canada and Mexico. There is no charge to remove this feature, but international roaming outside of Canada and Mexico will be subject to additional charges. When available, international roaming will require purchase of an international plan (sold separately). See www.firstnet.com/firstnetinternational for details. **Pricing:** Prices are for service only. **Plan Discounts:** Customers with the First Net Mobile Pooled data for feature phones plan are eligible for a monthly \$8.01 discount off the \$31 per month plan charge for subsidized device and \$8.01 discount off the \$19 per month plan charge for non-subsidized device; customers with the FirstNet Mobile – Unlimited smartphone plan are eligible for a monthly \$10.01 discount off of the \$50 per month plan charge; and customers with the FirstNet Mobile – Unlimited with Tethering smartphone plan are eligible for a monthly \$15.01 discount off of the \$60 per month plan charge. If you are eligible for a plan discount, it will be applied via a monthly bill credit. **Devices:** Sold separately. **Devices must be FirstNet Capable.** Installation plan charges and other device purchase costs are extra. A limit on the number of financed devices per wireless account may apply. **FirstNet Mobile Plan Discounts:** The monthly service charges of FirstNet Mobile–Pooled Plans for use with an unsubsidized device are discounted by \$20 per month as compared to the standard monthly service charges of plans for smartphones used with a subsidized device; FirstNet Mobile–Pooled Plans for feature phones and data devices are similarly discounted by \$12 per month and \$10 per month, respectively. The FirstNet Mobile–Pooled Plan discount will appear on Customer's bill. FirstNet Mobile–Unlimited plans are not discounted. **NO OTHER DISCOUNTS IN THE GOVERNMENT AGREEMENT APPLY.** **Loss of Monthly Service Charge Discount:** If Customer upgrades to a subsidized smartphone, feature phone or data device, Customer will lose the applicable plan discount for that Agency Paid User.

DATA: For use in the United States, Puerto Rico and U.S. Virgin Islands (the "Domestic Coverage Area" or "DCA"), other U.S. Territories, Canada and Mexico. Additional or promotional data may not be available for use outside the DCA. See att.com/broadbandinfo for details on AT&T network management policies. **Canada and Mexico Service Restrictions:** Plan usage not available in Canada and Mexico on Connected Devices. Pay-per-use roaming rates will apply on these devices.

FirstNet Mobile - Unlimited Plans: Unlimited plans do not pool. **Customer's usage of First Priority™ on any FirstNet Mobile– Unlimited Plan may not exceed 22GB a month for three consecutive months; AT&T reserves the right to require Customer to move to a FirstNet Mobile–Pooled Plan if usage exceeds this limitation. AT&T may proactively reassign Customer to a FirstNet Mobile–Pooled Plan upon notice to Customer, unless prohibited under the Government Agreement or regulation.** **Exclusions:** FirstNet Mobile- Unlimited Plans may not be used with any device or equipment that is intended to, or is used to, establish a continuous, unattended connection to the 4G LTE networks used to provide FirstNet services, including, but not limited to, automatic data feeds, mobile video transmissions, and automated machine-to-machine connections.

FirstNet Mobile – Pooled Plans: Within a single Billing Account Number (BAN), Agencies activated on separate FirstNet Mobile–Pooled Plans are combined to create a "Data Pool." Every billing cycle, each Agency Paid User first uses his or her plan's included data allotment ("Data Allowance"), if any. If an Agency Paid User does not use all of the plan's Data Allowance, it creates an underage in the amount of the unused Data Allowance (Under Usage). If an Agency Paid User uses more than the plan's Data Allowance (e.g., any Agency Paid User with a 0GB plan), the Agency Paid User incurs Data Overage charges in the amount of the excess data usage (Over Usage). At the end of the billing cycle, AT&T calculates the total Under Usage amounts for Agency Paid User lines in the Data Pool and the total Over Usage amounts for Agency Paid User lines in the Data Pool and then compares the two totals. If the total Under Usage amount exceeds the total Over Usage amount, the excess Under Usage is allocated among each Agency Paid User in the Data Pool with Over Usage, resulting in per line credits on Customer's invoice equal to each such Agency Paid User line's Data Overage charges. Any remaining excess Under Usage will be forfeited. If the total Under Usage is more than zero and if the total Over Usage amount exceeds the total Under Usage amount then the Under Usage is divided by the Over Usage to create an allocation factor that is applied equally to each Agency Paid User's Data Overage charges to determine each such Agency Paid User's share of the total Under Usage amount, resulting in per line credits on Customer's invoice to partially offset each such Agency Paid User's Data Overage charges. For example, if a Data Pool has 100 KB of Under Usage and 1000 KB of Over Usage (which means an allocation factor of 10%), then Customer's invoice will show, with respect to each Agency Paid User line with Over Usage, both (a) the Agency Paid User's Data Overage charges for the Over Usage at the specified Data Overage rate, and (b) a bill credit equal to 10% of the Agency Paid User's Data Overage charges. Changing or migrating Agency Paid User lines to FirstNet Mobile–Pooled Plans during a bill cycle may result in one-time prorations or other minor impacts to the credit calculation. If Customer's organization's Foundation Account Number has multiple BANs, Customer may have more than one BAN specific Data Pool; however, Agency Paid User Lines in one Data Pool cannot take advantage of another Data Pool's Under Usage, and each Agency Paid User line can only be part of one Data Pool at a time. AT&T reserves the right to limit the number of Agency Paid User lines in a Data Pool due to business needs and system limitations. **Data Overage:** If Customer exceeds the total amount of data in the Data Pool during a billing period, a pay-per-use rate of \$0.00009536 per kilobyte ("KB") will apply. 1,024 KB = 1 megabyte ("MB"); 1,048,576 KB = 1 gigabyte ("GB").

UNLIMITED TALK: For phones only. Preemption capability is provisioned as a standard feature on Agency Paid Users' network profile. Available network resources may vary by circumstances and network demands. **First Priority™ Uplift Management:** Provides Primary User Public Safety Entities' designated and authorized communications managers the ability to modify the relative priority and preemption capabilities of the Authorized Users of both Primary User and Extended Primary User Public Safety Entities provisioned with First Priority for a period of up to 24 hours through the use of the First Priority™ Uplift Management portal. **Termination or Suspension:** AT&T reserves the right to terminate, suspend or restrict the feature if use is inconsistent with applicable terms and conditions; the Government Agreement; or Service Guide (if applicable).
