READYWISE CAPABILITY STATEMENT

OVERVIEW: At ReadyWise, we specialize in high quality, cost-effective emergency meals and foods. From our unique, freeze-dried and dehydrated product development to manufacturing, packaging and shipping, we provide versatile solutions, tailored to meet a range of disaster, relief, and emergency needs.

PRODUCT HIGHLIGHTS: ReadyWise emergency meals are highly nutritious, lightweight and easily transportable. They do not have stringent temperature requirements, have an extended shelf-life of up to 25 years and are easily prepared by adding hot or cold water. Our recipes use a unique combination of freeze-dried and dehydrated ingredients. We offer over 28 meal varieties; examples include Cheesy Lasagna, Loaded Baked Potato Casserole & Strawberry Granola. We offer both vegetarian and gluten free options, too.

We also produce freeze-dried, pre-seasoned meats, fruits, vegetables, drink mixes and snacks. Our in-house product development team can create new and unique flavor profiles, packaging solutions and menu options in order to meet your needs. We are proud to accommodate cultural and ethnic preferences.

MANUFACTURING: Our 100,000 square foot facility is state-of-the-art. Located in Salt Lake City, Utah, we are Organic, USDA and FDA certified. To ensure quality control we conduct hourly product testing, as well as regular third-party testing to verify our results. Currently, we can produce over 1,000,000 servings of food per day. To support our quick response capability, we maintain an emergency floor stock at all times.

PACKAGING: Our products are versatile, designed for a wide range of applications to meet the needs of small and large customers alike. We offer a variety of packaging options. This includes up to 100 serving mass feeding buckets and an array of flexible metal pouches of different sizes, quantity and functionality. We also offer stackable grab-n-go buckets for quick and easy distribution. All of our packaging options are durable and functional. On average, a pallet holding 6,000 servings of food weighs less than 1,000 pounds.

BENEFITS: By using our meal solutions, your organization will be able to maintain a high volume of emergency/relief food while minimizing the need to rotate inventory, as well as all costs related to food storage and transportation.
